## About:

Assistant Behavior Technicians are trained to use the method of Applied Behavior Analysis to work with children affected by autism and other developmental disabilities in one-to-one and group settings. Responsibilities will also include helping with 2-3 special events throughout the year that may fall on a weekend or week night. The mission of the Brent Woodall Foundation (BWF) is to empower parents of children with autism and developmental disabilities and to encourage their involvement in their children's therapy by providing educational training, customized academic and behavioral plans, psychological assessments, and modest financial support. The BWF is a 501(c)3 charitable nonprofit located in Irving, Texas. The Foundation believes that every family should have the highest quality of services for their children no matter the financial situation. Visit the BWF online at [www.woodallkids.org](http://www.woodallkids.org).
